### PICK YOUR COLOR COMBINATIONS LIKE A PRO WITH THESE TIPS

1

#### Go for Bold

Mix bright colors, but not pastels, which can look childish together, says Katie Cazorla of the Painted Nail (where Hudgens often visits) and TV Guide Network's *Nail Files*.

2

#### Consider Glitter

A shimmery silver or sparkly clear polish will complement any shade from nude to red or blue, says Cazorla, who adds that a subtle glitter is a great way to accent a dark color.

3

#### Make Your Neon Pop

Pair a neon color with a textured neutral polish, like Rowland did, to balance the intense shade, suggests her nail pro Sarah Bland of Chi Nail Bar & Organic Spa.

4

#### Pay Attention to Detail

Let your ring or index finger sport the different hue, says Bland. Keep your nails short and slightly rounded to try the trend while "still looking classy," advises Cazorla.
